 OO: MILWAUKEE

Re Milwaukee letter to the Bureau, dated 10/7/80,
 captioned "ANTHONY FRANCIS PIPITO, aka; AR; OO: MILWAUKEE".

For the information of FBIHQ, on 1/28/63, captioned victim's body was found buried in a shallow grave in the basement of an abandoned building on Bong Air Force Base (BAFB) near Kenosha, Wisconsin. Victim, a white male, 46 years old, had been missing from his home in Kenosha since 1/8/63. Victim had been seen at the North Shore Railroad Station in Kenosha during the evening of 1/8/63, at which time he was observed being beaten by two unknown young men, who subsequently forced him into a car driven by a third unknown subject. This case, which has not been solved to date, was initially investigated under Milwaukee file 79-56, which file has since been destroyed.

As set forth in referenced letter, information has been obtained through [redacted] a recently developed source, that Anthony Francis Pipito, white male, DOB 12/10/34, FBI #882-714C, was responsible for the beating death of victim. [redacted]

examined by the FBI Laboratory, which conducted examination for local authorities in this matter under Bureau file number 95-107526. In this regard, [REDACTED]
[REDACTED]
[REDACTED]
[REDACTED]

[REDACTED] concerning the beating death of victim, leads Milwaukee to believe that subject was involved in this murder.

It is the opinion of Milwaukee that Bureau investigation relating to this gangland style murder at this time could not only result in a prosecutable Bureau case being developed against subject for this offense, but against the others who assisted in this beating, as well as who ordered such a beating. This matter is directly related to organized crime activities currently under investigation by the Milwaukee Division, in case captioned [REDACTED] RICO (A); OO: MILWAUKEE", Milwaukee file 183A-273. Milwaukee has recently been conducting an investigation regarding the past activities of Pipito to determine if a provable Federal violation existed concerning him, since it is believed that he has valuable information relating to two other gangland style killings, Isadore Pogrob in 1960, and Louis Fazio in 1972. In this regard, Milwaukee is attempting to determine if BAFB was a U. S. Government reservation on 1/28/63, when subject's body was discovered there, which would constitute a CGR-Murder violation under Title 18, Section 1111, U. S. Code.

b6
b7C

It appears from initial investigation by Milwaukee that the land obtained for BAFB was purchased some time in the late 1950's by the U. S. Government for establishment for a Strategic Air Command base. This land was subsequently abandoned by the U. S. Government before an active Air Force base was established. In 1966 and 1967, this land was turned over by the U. S. Government to the Wisconsin Department of Natural Resources. The body of Biernat was found in a

MI 70A-NEW

deserted home on BAFB that reportedly had been occupied by the Army Engineering Corps, when the base was being built.

REQUEST OF THE BUREAU

FBIHQ is requested through liaison with the Department of the Air Force to determine if Bong Air Force Base, Kenosha, Wisconsin, was a U. S. Government reservation on 1/28/63 and if the State of Wisconsin ceded jurisdiction over the property to the U. S. Government, which would result in the FBI having exclusive jurisdiction in this matter.

ReMIAirtel to the Bureau dated 10/20/80.

Research conducted by the U.S. Air Force has determined that the Richard Bong Air Force Base (BAFB) was disposed of by the Air Force on 7/7/66. Prior to that date the Air Force had proprietary jurisdiction only. Accordingly, criminal jurisdiction on the BAFB has always rested with the State of Wisconsin.

[redacted] a friend, introduced him to STEVE DI SALVO and [redacted]. Subsequently, they endeavored unsuccessfully to buy BIERNAT'S business.

On 1/7/63, at 10:00 pm, BIERNAT was accosted by three men at a railroad station in Kenosha, Wisconsin, and forced into an automobile. On 1/28/63, BIERNAT'S body was found in a shell grave in the basement of an abandoned house on then Bong Airforce Base. An autopsy revealed BIERNAT died of four blows to the head. A crime scene investigation developed a number of latent prints including a palm print found on specimen (Q64,C-55), a piece of earthen crock, which was sitting on top of the victim's grave.

Investigation was pursued by the FBI, and the Kenosha Police Department, but failed to develop enough information on

Instructions

Subject Priorities for FBI Arrest or Locates:

- A - Subject wanted for crimes of violence (i.e. murder, manslaughter, forcible rape, robbery and aggravated assault) or convicted of such crimes in the past five years.
- B - Subjects wanted for crimes involving the loss or destruction of property valued in excess of \$25,000 or convicted of such crimes in the past five years.
- C - All others

Claiming Non-Federal Arrests, Summonses, Recoveries or Convictions:

It is permissible to claim a local arrest, summons, recovery or conviction if the FBI significantly contributed to the accomplishment. A succinct narrative setting forth the basis for the claim must accompany this report. When claiming a local recovery, enter the word "LOCAL" to the right of the amount. Enter "LF" in the "In-Jail" block for all life sentences and "CP" for capital punishment sentences.

Reporting Convictions:

Convictions should not be reported until the sentence has been issued. There are two exceptions to this rule. The conviction information can be submitted by itself if:

1. The subject becomes a fugitive after conviction but prior to sentencing.
2. The subject dies after conviction but prior to sentencing.

An explanation is required in the Remarks section for either of the above exceptions.

Rule 20 Situations:

The field office that obtained the process (normally the office of origin) is the office that should claim the conviction, not the office where the subject enters the plea in cases involving Rule 20 of the Federal Rules of Criminal Procedures.

Investigative Assistance or Techniques (IA/Ts) Used:

- Since more than one IA/T could have contributed to the accomplishment, each IA/T used must be rated.
- The IA/T used must be rated each time an accomplishment is claimed. (For example - if informant information was the basis for a complaint, an arrest, a recovery and a conviction and if separate FD-515s are submitted for each of the aforementioned accomplishments, the "Informant Information" block must be rated on each FD-515 even if it was the same information that contributed to all the accomplishments.)
